

Draper Park Middle School Information regarding Mathematics 6 - Honors

Honors classes are offered in Mathematics for 6th, 7th and 8th graders. Students are most successful in honors classes when they have higher prerequisite skills.

Students interested in honors placement will need their parent to complete the online honors request form. This link can be located on the Draper Park Middle School home page. Please complete the Honors Request form by April 21st. Placement of qualified students into an honors class after that date cannot be guaranteed.

The four data points that will be used to determine placement into 6th grade math honors are the DIBELS Computation, DIBELS Concepts & Applications, DIBELS Composite Score, and the Student Assessment for Growth and Excellence (SAGE).

- DIBELS
 - Computation – benchmark is 56 and above on the spring score.
 - Concepts & Application – benchmark is 58 and above on the spring score.
 - Composite – benchmark is 114 and above on the spring score.
- SAGE math (Honors entrance exam will be used if SAGE is not available)
 - For 6th grade honors a highly proficient rating (level 4) on SAGE

Students achieving all four benchmarks will be placed in honors math. Students achieving three of the four benchmarks will be placed in honors math as space is available. A letter will be mailed home to those placed in honors on or around June 15th.

Transfer students requesting honors will need the 4 data points listed above. If SAGE scores are not available, counselors/administrators will administer End of the Year Assessments. There will be one day scheduled in June and one day scheduled in July to administer these assessments.

If you have any questions, please feel free to contact the counseling center at 801.826.6920.
