3. DPMS Counselors - 8th Grade College & Career Field Trip Review
85 students didn't show up on the day of the field trip - they'll work on that for next year
A student & chaperone video played from their experience
Thank you to the Counselors who put in so much work!
Feedback: Students may have bailed because they weren't teamed with their friends
Parents who volunteered had the privilege of registering their child early
Holly's son cared more about the University portion of the field trip than the job portion
4. Change in Math 6 track to Pullout - 5th entering 6th grade
Even though supports the Math Honors Track, she can't get behind it this year- Illustrative
MATH will take all the time of the Math Teachers - No time for HONORS
What will still happen:
 - 1 - Challenge Problems in addition to or substitute for other problems
 - 2 - Math Olympiad
 - 3 - Quarterly Projects
5. Process for Teacher of the Year Selection: Vanessa Croshaw - Guest Terri Francis from CCHS PTSA
Online Survey - Skylert to Parent Survey - Survey Monkey
Physical Form - All the names of the teachers, administrators, helpers
English Class - students complete
District & PTSA - different qualifications
Asked questions that filled both requirements
Terri types out all the responses and hands them to each of the teachers
Handed out "I Voted" Stickers as they voted
6. Leadership Training: Alisa Frost
Alisa requested leadership training for all students, not just Student Council
Are there assembly resources? What does a Student Leader look like?
These students need training about "What is a Leader?"
Barrett: Leadership mini-lesson for Student Council
Leadership Conference for Student Council
Mary: Let's brainstorm at next meeting tomorrow morning
Viking Scholarship is asking for a lot of Leadership examples
7. Vikings With Courage Program: Melinda Colton
Are we honoring enough students? Overall the answer is YES

8. Finalize Landtrust: Mary Anderson (see PowerPoint with specifics of CSIP & Landtrust expenditures for next year)

Holly suggested adding an Action Plan Item for Accelerated Students (the SCC agreed)

Science - Average growth for a student in year is .4%

This new plan will help them grow .8% - Structured Classroom Discussions

Vanessa & Chad - Remind Principal about Fall after-school programs around June 5.
